

# Atlantic Soils 2016 – Digging into Soil Health

**Delta Beausejour,  
November 17, 2016**

We invite you to join producers, extension experts and farm suppliers in Moncton, New Brunswick on November 17, 2016 to talk about what needs to be done to improve soil health. Topics include the physical, chemical and biological considerations of moving towards sustainable soil management systems.

Expert speakers on soil health will set the stage for open discussion by a producer panel where you can share your experience and learn from others.

More information on this exciting event including the agenda, registration and trade show opportunities will be available soon at [soilcc.ca](http://soilcc.ca).

**We look forward to seeing you in Moncton on November 17th!**
